TO WHOMSOEVER IT MAY CONCERN

This is in reference Mr. Ahmed Ibrahim Mungul, a 60 year old gentleman, (UHID: AC14.0000029657) who has been diagnosed with metastatic carcinoma lung –Stage IV (Brain and Bone metastases) at Apollo proton cancer centre, Chennai. His molecular tests are awaited and he is currently having symptoms of cough and pain back. He has completed one cycle of Chemotherapy with Pemetrexed-Carboplatin on 9/6/2023 and was admitted for fatigue. He has been planned for palliative external beam radiotherapy to the symptomatic skeletal and intracranial metastases with hippocampal sparing radiotherapy with tomotherapy technique under my supervision with the total dose of 30 Gy in 10 fractions. The total approximate cost of treatment will be 3250 \$ USD and the treatment duration will be approximately 2 - 3 weeks including planning.

Regards,

Dr. Srinivas Chilukuri, MD., PDCR.,
Senior Consultant Radiation Oncologist
Apollo Proton Cancer Centre, Chennai
