

Medical certificate

This is to certify that patient Doojhen Chummun aged 38 yrs old bearing ID N:C060284300091B is suffering from advanced rectal carcinoma with nodal metastasis.

Planned for palliative chemotherapy: Capeox regimen which consists of 6 cycles every 3 weeks. The aim of the treatment is to reduce disease progression and eventually prolonging life.

Patient has already started the 1st cycle and needs financial support to continue treatment.

Kind regards,

Dr. Mansi Khanderia
